Experience

Brainfleck Solution

April 2023 – Present

Sr. Full Stack Developer

Surat, India

- Developed custom WordPress websites with responsive design and dynamic layouts tailored to client needs.
- Created reusable ACF blocks for streamlined content management by non-technical users.
- Created custom plugins to handle complex features without breaking theme compatibility or causing conflicts.
- Performed regular security audits and malware scans, leading to a 75% decrease in reported vulnerabilities.
- Implemented on-page SEO best practices, contributing to a 30% average increase in organic traffic across projects
- Managed hosting, deployment, and maintenance using WP Engine, SiteGround, Hostinger, and Pressable.

Projects

sophiateachers.org | *PHP, WordPress, WooCommerce*

February 2025 – Present

- Built an e-commerce platform for educational institutions using WooCommerce to sell books and course materials.
- Implemented multi-organization content control and smooth transaction workflows with custom WooCommerce features.
- Integrated Fluent Forms with tailored email automation for enhanced user interaction and engagement.
- Boosted site performance and SEO using WP Rocket and Yoast SEO for faster load times and better search visibility.

InsureMatter | *PHP, Laravel, JavaScript, jQuery, OOP*

October 2024 – January 2025

- Developed secure RESTful APIs in Laravel to manage leads, clients, policies, sold policies, and claims for insurance firms.
- Built dedicated dashboards for admins and employees to streamline daily operations and agency oversight.
- Enabled legacy data migration via Excel import/export and automated reporting capabilities.
- Created a secure client portal for downloading policies, tracking renewals, and accessing partner agencies.
- Replaced spreadsheet-based workflows with a robust web platform, improving reliability and data accessibility.
